ABILITIES

Communicative   Energetic
Postvie   Creative

Hard Working   Teamwork
Resistance To Stress

ABOUT ME

I am a second year Computer Science student at West University of Timișoara, looking for internship opportunities. I am describing myself as a communicative, positive and energetic person. I can remain calm in critical situations, due to my resilience under stress. I am ambitious and a hard worker, so I don't give up until I succeed in what I set to do. I like to work in a team and to actively participate in the good development of work tasks. I am passionate about IT, I have experience in this field and I am open for learning more.

PROJECTS

Student Connect | 🐙

📅 Apr 2021 – May 2021

- Student Connect is a MERN application that has as a target to make the connection between students and company easier.

- My role in this project was to make a frontend for the application using ReactJS framework and Bootstrap and fetching data from the REST API we created on the backend side.

Burger Builder |

 Sep 2020 – Dec 2020

- In a React course we created an application that allows you creating a burger.
- This project is a web application created whit ReactJs that allow you to build a burger and deliver it to you.
